Data Analysis?

“Data Analysis is the process
by which data becomes
understanding, knowledge
and insight”

Hadley Wickham

“Computing with data refers to activities in which data is acquired, managed, and processed for a great variety of purposes: organization, visualization, summaries, analysis, etc.”

John Chambers

“Computing with data refers to activities in which data is acquired, managed, and processed for a great variety of purposes: organization, visualization, summaries, analysis, etc.”

John Chambers

Last time ...

DATA: BY THE NUMBERS

My vision of the Data Analysis Cycle

Cooking Metaphor

Data Analysis
is a lot like
Cooking

Cooking stages

- Get the food/ingredients (i.e. data)
- Washing, rinsing, soaking
- Peeling, cutting, chopping, slicing, dicing, blending, etc
- Boiling, simmering, sauteing, frying, roasting, toasting, grilling, baking, etc
- Mise-en-place, serving
- Eating & enjoying
